Subject:- Accident to Shrimati Lakkavva Yellappa Kalliyavar, Mazdoor- Payment of compensation.

Reference: This office No.G-1 dated 7-5-1951.

2. As already reported, the piece-worker Shri.B.R.Gavali, who was asked to deposit the amount of Rs.567/- with the Commissioner for Workmen's Compensation, Bombay, neither acknowledged the communication addressed to him nor deposited the amount. The Executive Engineer, Ghataprabha Left Bank Canal Division, thereafter, referred the point to the Commissioner for workmen's Compensation for advice as to the further action to be taken in the matter. The Commissioner for Workmen's Compensation advised the Executive Engineer that the injured Mazdoor should be instructed to make an application, to the Civil Judge, Senior Division and ex-Officio Commissioner for Workmen's Compensation, Belgaum, against the P.W.D. in the first instance, as the Department could then apply for indemnity against the Contractor after receipt of the summons, vide copies of his letters Nos. CO-5070 dated 20/21st April 1951 and CO-6246 of 14/16th May 1951 attached herewith, for information. The injured Mazdoor has, accordingly, put in an application against the Public Works Department and the Executive Engineer has received summons to attend the Court at Belgaum.

3. As all further proceedings in the Court would be conducted on a legal footing, the Executive Engineer, Ghataprabha Left Bank Canal Division, contacted the District Government Pleader, Belgaum, for his advice and requested him to conduct the proceedings on behalf of this Department. The Government Pleader, however, replied that he could not give any advice, nor could he take up the case without prior sanction of Government. In view of this reply the Executive Engineer has got the case adjourned, in the meantime.

4. In the circumstances, Government may kindly be moved to authorise the Government Pleader at Belgaum to appear in theCourt of the Civil Judge at Belgaum and conduct the proceedings on behalf of the Executive Engineer, Ghataprabha Left Bank Canal Division, Ghataprabha. Early sanction is requested as the case has already been taken up for hearing by the Court.

5. As this is a case in which the pieceworker, who had employed the Mazdoor when she sustained the injury, is really the defendant and indemnity against the pieceworker has to be applied for, the procedure prescribed in Rules 118-119 of the Rules for conduct of legal affairs of Government has not been followed, being too elaborate and not being considered necessary in this case. This Department is thus only technically involved with practically very little liability of defending the case.

APPLICATION UNDER THE WORKMEN'S COMPENSATION ACT ~~No. 3 of 1951.~~

Misc. Application No. 3 of 1951

Chronological Statement of Facts.

1. This is an application by one Lakkawa Yellappa against the Executive Engineer, Ghataprabha Left Bank Canal Division, for compensation for the personal injury caused to Lakkawa by accident arising out of, and in the course of her employment as Mazdoor, on the 27th June 1950 at about 12-45 p.m. at mile No. 29 of the Ghataprabha Left Bank Canal under construction.

2. The details of the accident which gives rise to this application, are as under :—

Blasting operations were being done by one piece-worker Shri Waddar. A female Mazdoor, the present applicant was working with another piece-worker Shri B. R. Gavali about 450 feet away from the spot of blasting.

3. As per normal practice prevalent during the previous months, the work was stopped for mid-day recess at 12-30 p.m. During the recess period of one hour, the blasting operations were permitted with due precautions such as red flags, whistles, etc. The recess begins by the blowing of the whistle, on hearing which the workers are expected to leave the work spot immediately and to retire to a safe distance. On the fateful day, i.e., 27th June 1950, unfortunately, the applicant was lagging behind in the excavation pit 7 feet deep and 450 feet away, even after the whistle. A piece of stone, hurled during the blasting, hurt her leg fracturing her bone.

4. The injured woman was an unskilled Mazdoor and her average monthly earnings during the previous 12 months were Rs. 26. After the accident, the woman was removed to the hospital and treated there up to 16th October 1950. The Civil Surgeon, Belgaum, has certified that the permanent nature of the disability caused by the accident to the applicant is to the extent of 50 per cent.

5. The mother of the applicant then applied to the Executive Engineer, Ghataprabha Left Bank Canal for payment of Rs. 50 per mensem for the maintenance of her daughter and Rs. 800 as hospital expenses. Copies of this application were forwarded to the Collector, Belgaum, Superintending Engineer, Karnatak Circle and Dr. Jivraj Mehta for granting the required relief. The matter was then referred to the Commissioner for Workmen's Compensation, Bombay, for ascertaining whether the injured mazdoor was eligible for compensation under the Workmen's Compensation Act, 1923. The Commissioner assessed the amount of compensation to the tune of Rs. 567. The piece-worker who employed the injured woman was informed by a notice to deposit the amount of compensation. But the contractor neither gave any reply nor deposited the amount.

6. The applicant then submitted this application to the Civil Judge, Senior Division, Belgaum and the *ex-officio* Commissioner for the division, for the abovementioned relief.

Grounds of Defence.

1. The first contention should be that the accident took place due to the negligence on the part of the applicant. She was slow to leave the spot after the whistle was given at the beginning of the blasting operations. They began in the recess period with sufficient precautions. The applicant lagged behind, in spite of the timely warning by the persons concerned. Besides, she was at a safe distance from the scene of the operations. It was her negligence which cost her this partial disability. She is not, therefore, entitled to claim compensation from the Government.

2. It appears that the injured workman was employed by the piece-worker Mr. Gavali, to whom the work was entrusted for execution. As the workman was engaged in carrying out the work through the medium of the piece-worker, the Government would be liable to pay the assessed compensation of Rs. 567 to the injured woman in the first under section 12 of the Workmen's Compensation Act with a right to be reimbursed for the same amount by the piece-worker Shri Gavali.

3. Thirdly, the applicant should have filed an application against the State of Bombay and not against the Executive Engineer. Hence her application against the Executive Engineer would not lie.

4. Lastly, the injured applicant is entitled to a lump sum as held by the Commissioner and not to any half-monthly payments as claimed by her in her application.

For these reasons it should be contended that this application fails and should be dismissed with costs.
